3 rules and regulations pertaining to nutrition, health, sanitation, internal accounting procedures,
4 and service of foods and will meet all state and federal and local requirements necessary for
5 participation.¹

6

7 The system's food service supervisor will oversee the program. All products and services
8 necessary for the operation of the school nutrition department shall be procured using the Board-
9 approved procurement plan which must comply with federal and state purchasing procedures.

10

11 School Nutrition may include the following programs: National School Lunch Program, School
12 Breakfast Program, Summer Food Service Program and Afterschool Snack Program. Meals and
13 snacks that are offered shall meet the federal requirements for reimbursement as defined by
14 federal regulations. School food service receipts will be used only to pay regular food service
15 operating costs. When food service facilities are used by outside agencies, an adequate fee may
16 be charged and the manager will ensure that no USDA commodities or supplies provided for the
17 regular program are used.

18

19 As required for participation in the School Nutrition Programs, the Board agrees to the
20 following:

21

- 22 1. Meals/snacks must be made available to all students in attendance.
- 23 2. Free and reduced-price meals/snacks must be made available to students who are determined
24 eligible for these benefits.

25

26 Students will be permitted to bring their lunches from home and to purchase allowable beverages
27 and a la carte items at school.

28

29 **OFFER VERSUS SERVE (Grades K – 12)**

30

31 Under offer versus serve for the School Breakfast Program (SBP), a school must offer at least
32 four food items from the three required food components. The components at breakfast are
33 grains (with optional meats/meat alternates allowed), juice/fruit/vegetable, and milk. The SBP
34 does not have a separate meat/meat alternate component. Schools may substitute 1 ounce
35 equivalent of meat/meat alternate for 1 ounce equivalent of grains after the minimum daily grains
36 requirement is met. The student must select three food items/credits, including at least 1/2 cup of
37 fruit, to have a reimbursable breakfast.

38

39 A school lunch eligible for federal reimbursement shall offer 5 food components (milk, fruits,
40 vegetables, grains, meat/meat alternates) in the appropriate amounts per grade groupings.

1 Students are allowed to decline 2 of the 5 required food components, but must select at least ½

3 fruit/vegetable combination. After selecting the ½ cup fruit or vegetable requirement, students
4 must select at least 2 additional full components in the full amounts (per age/grade grouping
5 required amounts) to count toward the reimbursable offer versus serve meal. The student's
6 decision to accept all 5 components or to decline 2 components shall not affect the price charged

9 Offer versus serve is for grades K-12.
